Playtex Sliding Carpet

Playtex offers a regular and consistent carpet like material which is ideal for sliding activities such as tubing, tobogganing, ringo parks, or nordic cross country skiing. It can also been used underfoot as a tough material for high volume spectator areas and as a tennis court surface.

Playtex material offers the user;

- **a consistent performance**
- **a tough and durable carpet like material**
- **easy to manage with very little maintenance**
- **available in practical green or terracotta colours or in white by arrangement**
- **a product which is easy to install**
- **a cost effective alternative to ski material and ski matting**
- **a surface which drains water freely**
